Work Experience

Udenfy, Inc.

Full-Stack DEVELOPER

Remote

September, 2020 - October 2021

- Worked on the development of E-commerce and LMS website (Udenfy.com) and created new features to enhance the user experience.
- Translated designs and wireframes into a highly responsive user interface and reusable components using React.js and elementor.
- Used Wordpress RESTFUL API with Gatsby.js to display data using the Custom Components, library Components, and Frontity.
- Developed Custom plugins in PHP and configured 3rd party plugins for the agile deployment of site.

Projects

AvatarPunks

NFT MarketplaceDApp

- AvatarPunks is an NFT marketplace created from data stored entirely on the blockchain and displayed through an application deployed on a decentralized file system.
- Used React-Router to turn the application into Single Page Application.
- <https://github.com/edward2mv/AvatarPunks>

React, hardhat

Web3.js, IPFS,
